

The FCC's proposal to expand the broadcast service known as LPFM could force FM translator stations like K-LOVE off the air. LPFM's could make it so that radio station K-LOVE is no longer available in my listening region.

K-LOVE is my main radio station, I listen to it everyday. It provides a positive and Christian alternative to secular radio. Even people who don't go to church listen to K-Love and benefit from it greatly. In my opinion K-LOVE, when listened to in the car, reduces road rage b/c it is spiritual and uplifting and puts you in a good mood.

Please do not allow LPFM's to have priority over FM translator service. Thank you.
